

Application for membership in The Book Club of Grosse Ile

Established in 1934 as a response to the lack of a library on the Island, The Book Club of Grosse Ile has developed a distinct, unique identity. This book club is composed of scholarly women who are looking for the challenge and stimulation only quality literature can bring. Each year our selection committee chooses our titles which have been published within the previous year and have received noteworthy reviews. Our members each purchase one of the books. Once library-wrapped by our circulation committee they are rotated twice a month, which gives members the opportunity to read over 20 new books per year for the cost of one book. There are three speakers during the year, most of whom are authors, who shine light on various subjects including the writing process. In addition, two book discussions allow members to interact and reflect on current literature and topics. Coming together for various activities brings about joyful, spirited interaction among members.

We have two classes of membership. Active members participate in reading and passing the selected books and all programs. Associate members do not pass and receive books but are encouraged to attend the programs and book discussions. The cost of your book is included in your dues for active members.
